

It is the policy of Maine Fiddle Camp, that all campers of all ages, be able to **self-administer** any and all routine and/or emergency medications, as prescribed by their physician.

“Routine” medications are those taken by the camper daily or as needed. “Emergency” medications are those such as epi-pens for allergy, and inhalers for asthma.

Permission forms (**for emergency meds only**) must be completed and attached, or brought to camp. One form is a doctor’s note, describing the emergency medication needed, and the assurance that the camper can self administer. This form must be completed **for all campers of all ages** who may bring their emergency medications to camp. The other form is permission signed by a parent or guardian, that their **minor child** may **self-administer**.

Finally, any minor child who **cannot** self-administer their routine or emergency medications, must be accompanied by a parent or guardian who can be responsible to give the medication to the camper.
